

Suggested Text for Conference Website/Email

IRMMW-THz2007 has registered for use of a new IEEE tool: **IEEE PDF eXpress™**

The new IEEE *Xplore*® Requirements for PDF will be enforced as of 2005. All conference articles submitted for inclusion in IEEE *Xplore* must adhere to the IEEE *Xplore* PDF specification for compatibility.

IEEE PDF eXpress is a free service to IEEE conferences, allowing their authors to make IEEE *Xplore*-compatible PDFs (Conversion function) or to check PDFs that authors have made themselves for IEEE *Xplore* compatibility (PDF Check function).

Steps for submission:

- 1) Create your manuscript(s)
- 2) Proofread and check layout of manuscript (it is highly recommended that you do this BEFORE going to IEEE PDF eXpress.)
- 3) Create IEEE PDF eXpress account
- 4) Upload source file(s) for Conversion; and/or PDF(s) for Checking
- 5) Use IEEE PDF eXpress to attain IEEE *Xplore*-compatible PDF(s). The site contains extensive instructions, resources, helpful hints, and access to technical support.
- 6) Submit final, IEEE *Xplore*-compatible PDF(s) via the field form on our conference website.

IEEE PDF eXpress converts the following file types to PDF:

Rich Text Format
Freelance
(La)TeX (DVI and all support files required)*
PageMaker
FrameMaker
QuarkXpress*
Word Pro
Microsoft Word
WordPerfect

*For documents created in formats that do not embed source files, include all support files with the final manuscript in a folder. Put this folder in a compressed archive for submission. If it is possible to embed images in the source document, you should do so to avoid potential issues, such as missing graphics.

IMPORTANT: A DVI (DeVice Independent file) is required for LaTeX conversions, in addition to all associated image files. Make sure that your LaTeX system can output a DVI, otherwise it cannot be converted. Be sure also to check that your images are properly referenced, and that DVI can handle the image file types used (DVI does not handle some newer image types, such as *.png).
